Werte:

Stringliste

Es ist die Filterbeschreibung des Browserherstellers zu beschaffen.

Filter des Internet Explorer sind eventuell von Änderungen und der Inkompatibilität von Active X (DirectX-Komponenten) zur Vorgängerversion (auch innerhalb einer Windowsklasse) anhängig. Die Anhängigkeit von der Browserversion, welche wieder abhängig ist von der Windowsversion besteht direkt. Man darf nicht vergessen: Will man Filter testen, so muss man pro zu testende Windows-Version eine Lizenz besitzen. Sollte innerhalb der zu testenden Windows-Version der Browser in mehreren Versionen derart getestet werden, dass mehrere Test-Betriebssysteme vorhanden sind, so benötigt man pro Testsystem 1 Lizenz. Es gibt ev. die Möglichkeit, den Browser in Generationen unter einem gemeinsamen Windows zu installieren, so wie es z.B. der Browserhersteller Opera für seinen Opera-Browser explizit anbietet.
